"At Stokes Wood Primary School the health and safety, safeguarding and promoting the welfare of all children is of paramount importance."

James from Energy Sparks visited the house captains and Year 6 school council members to talk about how the school is doing in our work to be more sustainable, save energy, protect our world and save money too. They investigated heat generated using the thermal detector device.

James then led an assembly for KS2 with a similar theme. On that note remember to score goals for Leicester City Football Club.
