

Stokes Wood Litter Policy

At Stokes Wood Primary School we believe that keeping our school and grounds free of litter is everyone's responsibility. We are expected to put our own litter in the bin and to encourage others to do so if we see them doing otherwise. With appropriate hand coverings and apparatus if needed and when instructed or supervised as appropriate, we can take part in more organised litter picking to clear areas where litter can gather. We have an annually reviewed risk assessment for litter picking activities.

The head teacher believes that all members of the school community should be good role models where litter is concerned, whatever their role.

The Site Manager completes a weekly litter pick on a Friday and a litter clearance outside the school gates on a Monday morning.
